Re: Noted error on Filing receipt "Notice to File Missing Parts"

Dear PTO,

Please find enclosed a letter from the PTO requesting replacement oath, drawings, amendment, and an additional fee of \$120.

I will address the "Notice of Missing Parts" in the order that it raises the issues:

1) **"* Total additional claim fee(s) of this application is \$120. \$120 for independent claims over 3"**

The \$120 payment is enclosed as I would not suffer a rejection by the PTO for that amount, but I cannot derive a method by which the fee was calculated. There is a \$120 fee for a late oath but that oath has been on the first and last page of every application you have received for me.

2) **"A properly signed oath or declaration in compliance with 37 CFR 1.63, identifying the application by the above Application Number and Filing Date is required"** The Application could have no application number until the PTO assign it so obviously I could not note it on the applications Oath but the PTO certainly could. PTO form SB01 has been included for your convenience. The signed oath has been on the first (and probably the last) page of every application you have received for me.

3) **"Substitute Drawings in compliance with 37 CFR 1.84 because: drawing sheets do not have the appropriate margins. Each sheet must include a top margin of at least 1 inch, a left side margin of at least 1 inch, a right side margin of at least 5/8 inch, and a bottom margin of at least 3/8 inch"** Perhaps the PTO reviewed the uncorrected drawings submitted on 9/16/2001. To my measure all drawings were in margin compliance as of that submission. The whole application is enclosed that no mix-up need occur again.

4) **"Substitute Drawings in compliance with 37 CFR 1.84 because: drawings contain excessive text. Suitable descriptive legends may be used, or may be required by the Examiner where necessary for understanding of the drawing but should contain as few words as possible."** I edited the bitmap drawings to remove any redundant or inappropriate legend that I could find, yet I am still at a loss as to how I should meet your criteria as it seems very subjective - I beg you not to tear the fruits of my labor from me on this issue - you may do this and there is nothing I can do about it except beg. Yes, the descriptive legend I have applied to the drawing is more descriptive than nominal. I have made several attempts to pair the verbiage but each cut has made the drawings much less than revealing. The methods employed by these devices are generally so devoid of prior art that the drawing seem undecipherable without a relatively rich legend. Surely, the application would be weaker if the legend were made nominal. Please accept these drawings.

5) **"Fig 13 described in the specification ... has been omitted."** I did that intentionally as the claims supported by that drawing were not worth the cost of claiming and completing the drawing - so I removed the drawing. At your request I have removed the all references to that drawing, renumbered the drawings, and edited the references to match the new drawing numbers as is required by option "III" of the PTO's attached letter.

The sanitized application is enclosed along with a check for \$120 (which my children will sorely miss)

Thank you,
Russell P Davis
